2024 JRGOS Zimmer Biomet Research Grant

For Orthopaedic Attending Surgeons

The purpose of the JRGOS Zimmer Biomet Attending Orthopaedic Surgeon Grant is to provide funding to Orthopaedic Attending Surgeons for research projects that support the JRGOS Mission. The research study should be designed so that a measurable outcome is achieved at the end of the grant cycle.

Funding: \$20,000 Grants for Orthopaedic Attending Surgeons

Eligibility Requirements for Orthopaedic Attending Surgeons:

1. The primary applicant must be an Attending Orthopaedic Surgeon
2. The primary applicant must be a Member in good standing for at least two years and remain a Gladden Member for the life of the research
3. If submitting an application to fund a research project JRGOS must be recognized for its support of the work and upon all subsequent occasions when the data is presented
4. Recipient must provide updates every 6 months
 5. No indirect costs are allowed as part of this grant

Deadline for Grant submission: October 14, 2024
